EDUCATION

University of California, Santa Barbara (UCSB) **Expected Graduation: June 2027**
Degree: Bachelor of Science (B.S.), Environmental Studies & Biological Sciences **GPA: 3.98/4.00**
Relevant Coursework: Course Research on nuclear waste management, Environmental Statistical Analysis/Coding, Principles of Urban Planning, Water Management, Organic Chemistry/Physics/Chemistry/Biology + Wet Labs, Renewable Energy Technologies

EXPERIENCE

2035 Initiative Research Assistant **Feb 2026 - Present**
Institute for Energy Efficiency @UCSB
- Conduct bilingual policy research, translating Japanese political manifestos and direct analysis of South African political manifestos for comparative sustainability studies (2035 Initiative Project @ UCSB).
- Use R for text preprocessing and quasi-sentence generation to analyze fragmented manifesto text and classify implicit political emphasis on sustainability.
- Collaborate to integrate findings in Japan and South Africa into broader research outputs from other countries.

Marketing Intern **Aug 2025 - Present**
Solaris Trailer @Santa Barbara
- Outreach with potential clients and partners to generate leads and gauge interest in mobile solar power systems.
- Create and manage social media content across LinkedIn and Instagram using Canva to promote Solaris Trailer's clean energy solutions and its mobile solar business.
- Assist in creating a comprehensive business plan for the startup, outlining growth strategies and market positioning.

Vice President + Head Athletics Coordinator **Oct 2023 - Present**
Nikkei Student Union @UCSB
- Lead overall club operations, strategic planning, and event coordination for a 100+ member organization.
- Collaborate with executive board members to design and execute initiatives that promote inclusivity and engagement of Japanese American Culture, garnering engagement through tabling and outreach.
- Represent the club in campus and community settings, strengthening partnerships & advancing organizational goals.
- Coordinated logistics and scheduling through effective communication with the team and external organizations.

Student Instructor **Sep 2024 - Dec 2025**
Sprout Up @UCSB
- Educate 1st and 2nd-grade students to introduce fundamental environmental concepts, fostering curiosity and awareness about nature, and promoting stewardship among younger generations.
- Guide kids through critical thinking exercises to explore environmental challenges and solutions.
- Design structured lesson plans with interactive activities to enhance understanding and engagement.

Restoration Agent **Aug 2022 - Jun 2023**
Nature Nexus Institute @Culver City
- Collaborated with a team of volunteers by weeding out invasive species and planting native plants, as well as advocating for local ecological health and biodiversity by conducting original restoration projects.
- Built relationships with sponsor businesses to secure funding and increase awareness of the program's mission.
- Outreach to stakeholders and expand community involvement through networking and planning events.

SKILLS
